## **DESIGN OF WATER SUPPLY AND SEWERAGE SYSTEM IN HOTEL COMPLEX**

**Yanislava Valkova<sup>1</sup>**

**Abstract:**

*The article discusses the peculiarities of designing the water supply and sewerage system of hotel complexes. The design stages are analyzed and a design solution for a particular site is presented. There are presented technical solutions and details for specific elements of the building installations. As a result, a design model of such objects is proposed.*

**Keywords:**

*Building Water Supply System, Building Sewer System, Hotel Complex.*
