TECHNOLOGICAL SOLUTIONS USING BAMBOO SCAFFOLDING IN INDIA

Margaret Traikova¹, Evgenia Bogdanova²

Abstract:

The report examines some examples from India for using bamboo as a traditional scaffolding material. The ways of fixing the individual elements as well as the technology of the bamboo scaffolding have been systematized. A comparative analysis has been made with the scaffolding used in Bulgaria. In conclusion, conclusions are drawn on the applicability of the bamboo scaffolding and proposals have been made to optimize the technology of implementation.

Keywords:

Technology, Bamboo, Scaffolding.
